OUR 51st YEAR

Longacre 4-

4954 - 5 - 6

BULBS - PLANTS - SEEDS - SUPPLIES

Easter—March 28, 1948

In issuing this catalog, at the beginning of our 51st year, we have endeavored to make it as comprehensive and accurate as possible. We cannot, of course, know at this time what price changes may occur during the year. Some items may be less—others more. If the former, of course you will be billed at the lower price, if the latter, we will advise you prior to shipment.

As heretofore, we shall endeavor to supply only stock of top quality, and to see that it is packed to reach you in good condition. If it does not—and we are at fault—we ask the opportunity to make satisfactory-to-you-adjustment. If the transportation company is at fault—we shall be glad to be of any help we can to you in compelling it to pay for its errors.

We have appreciated your confidence and shall make every effort to continue in receipt of it.

Sidney H. Skidell

President.

TERMS

All bills are subject to 2 per cent discount within 10 days from invoice date. Sixty days net. Sight draft, plus interest, thereafter.

Shipments are forwarded by best carrier, in our judgment, at time of delivery, unless otherwise specified by customer.

First-class stock is carefully packed when shipment is made, and we hold good order receipt from the transportation company. Our responsibility ceases thereafter. If the stock reaches you in bad condition, notify agent and bring claim against the delivery company for damage by their negligence, as no allowance for this cause can or will be made by us.

All items in this list are offered subject to crop deliveries or failures, and being unsold on receipt of order, and other conditions beyond our control, and ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

Bulbs, whether shipped on arrival or placed in cold storage for later delivery, may be examined at time of arrival if desired, but

no claims will be entertained at a later date. As to all items other than bulbs, claims must be made within five days after receipt or they cannot be recognized.

In the interest of time saving, we ask that you authorize us, when necessary, to substitute with the nearest similar size or variety.

Discounts for cash with order. Flower seed orders up to \$25.00 5%. Over \$25.00 8%. Vegetable Seeds 2%. On all other items 3% is allowed, except on cyclamen, grass seed and special quotations.

New accounts desiring credit, please give three trade references.

We mail all flower seeds post-free to any point in the United States, at prices listed in this catalogue.

Note: Purchaser pays transportation on grass and vegetable seeds.

Disclaimer. While we, S. S. Skidelsky & Co., Inc., exercise the greatest care to have all seeds pure and reliable, and all bulbs, plants and cuttings true to name, we do not give any warranty, express or implied, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they must be returned at once and the money will be refunded. Our liability, in all instances, is limited to the purchase price of the seeds, bulbs, roots or plants.

SINCE 1897 WE HAVE SERVED THE WHOLESALE TRADE WITH ONLY THE BEST IN BULBS: PLANTS: SEEDS: SUPPLIES.

GREENHOUSE WINTER PANSY

TALL LONG STEMMED GIANT FLOWERS

Splendid colors. Plants grow 3½ to 4 feet high, covered with large well-formed blooms on stems ten to twelve inches long.

They require staking and training as early as possible to prevent checking of growth. Sow under glass July or Aug. for your winter crop. Plants should commence flowering in about 4 months.

10" up.....100 per case.....	47.50

HARDY LILIES (Spring Delivery)

Plant bulbs immediately on arrival in a well drained soil, giving them plenty of opportunity for root action. The containers should then be set on a raised platform in a cool, semi-dark place, affording perfect drainage. When flower buds appear, the plants will then readily submit to forcing. They may also be planted out of doors for flowering in June and early July and later.

PLEASE ORDER IN CASE LOTS. WE CANNOT ACCEPT ORDERS FOR LESS

Formosanum. (Wilson's.) Late variety. A superior form of trumpet lily. Flowers are pure white with an emerald green throat and are shaded externally with violet. Height 4-6 ft. Sept.-Oct. flowering.....	Size	Quantity Per Case	Per 100

HARDY LILIES (Spring Delivery)

Size	Quantity Per Case	Per 100	Per 1000
Regale. One of the finest and most beautiful of all Lilies, and certainly one of the easiest to grow, thriving in a great variety of soils. Slender stems, crowned with several large funnel-shaped flowers variably wine-colored without, pure white on the face, clear yellow within the tube; anthers golden. Vigorous grower, attaining sometimes as high as twenty flowers or even more on a single stem. Stem rooting. Plant the bulbs 8" deep in any good well drained loam, with or without lime, preferably in a sunny position. Height 4-6 ft. July flowering

GLORIOSA ROTHSCHILDIANA

A Practical and Beautiful Novelty for Corsage or Cut Flowers.

A profusion of brilliant red and yellow flowers resembling the Speciosum Lily, but a trifle smaller. Can be had in flower for Christmas as well as through the year. Requires three to four months to bloom. Grows taller than Speciosum and should have a bit higher temperature.

SUPPLY LIMITED — WRITE FOR PRICES.

Fancy Leaved Caladiums

BRIGHTER COLORS. BIGGER LEAVES. MORE LEAVES.

Caladiums are easily grown but should not be put in a Carnation temperature. Start the bulbs in flats, turning them upside down, since this is a crown-rooting bulb and the roots come out around the top (center) eye. This direct contact with the growing medium produces roots more quickly than the opposite method. Use a mixture of one part leaf-mold, one part good garden loam, and one part peat moss or other coarse neutral material, adding a small amount of coarse charcoal or other rubble for drainage. Press the bulb halfway into the soil and place the flats under a bench. The flats can also be placed on top of the flows, but if this is done they should be shaded. The temperature should be 80 to 85 degrees or higher, as the higher the temperature, the better starting results you will have. Be careful that the flats do not dry out if placed either on the flows or returns. Water sparingly until the bulbs begin to sprout and have roots 4 to 6 inches long. When the sprouts begin to show place the bulbs in 5 or 6 inch pots using good rich leaf-mold. Water copiously when in full growth and use weak liquid manure once weekly if possible.

SPECIAL DESCRIPTIVE LIST MAILED ON REQUEST.

NEW INTRODUCTIONS

Crimson Wave. Large deep green leaf with crinkled transparent crimson or scarlet center and many crimson spots toward edge.

Fire Nymph. Similar to Firebrand but taller and mottled with two shades each of bright pink and straw color.

Pink Cloud. Large, crinkly, well-opened leaves of a mottled pink with a cloud-like effect in the coloring.

Red Ensign. Dwarf variety with leaves of metallic red; narrow green border.

Red Flare. Similar to Scarlet Pimpernelle, but blotched with two shades of green.

Red Polka. Bushy dwarf grower. Bright red leaves with many polkadot spots of a slightly lighter shade of red.

Red Skin. Dwarf variety with pointed leaves. The color is a dull rich scarlet over the entire leaf. (Plant patent pending.)

Sea Gull. Dwarf, with a dark green leaf, heavy white midribs and white center. Very effective new white.

***Tom Thumb.** Very dwarf, the color varies but is usually copper-red with a few white blotches in the center. Midrib is bright crimson. (Plant patent pending.)

SELECTED NAMED VARIETIES

***Ace of Hearts.** Deep rose center with heavy scarlet ribs and green border.

***Attala.** Medium green overlaid with large irregular blotches of light pink, veins and ribs crimson.

Candidum. Fine Easter variety. Leaf snow white, with green veins and network.

Cleo. Mottled crimson center with pink and green blotches, veins white and yellow.

Dr. M. Cook. Dark moss green with plum red center and red ribs.

Edith Mead. Erect snow-white leaf (not transparent) with red ribs and narrow green edge.

***Hortilania.** Leaf shining crimson with bluish tints. Best red.

Itacapus. Entire leaf dark red of a rust shade, narrow border with red dottings.

Jessie Thayer. Tall growing, with mottled green leaf, heavy scarlet midrib.

John Peed. Shining bright metallic red center on moss-green ground.

Keystone. Medium sized olive-green leaf with pink ribs and veins, speckled light pink.

Lord Derby. Transparent rose, with dark green ribs and narrow green edge.

Macahyba. Dark moss-green leaf profusely spotted lilac; heavy scarlet ribs.

Madam Truall. Dwarf, shining red leaf with bronzy hues; broad center ribs of darker shade.

Marie Moir. Large pure white leaf like Candidum, but having red blotches between the ribs.

***Mary Queen of Scots.** Mottled dark green and grayish green; maroon ribs; spotted scarlet.

***Mrs. Arno H. Nehrling.** Dwarf bronzy red with crimson ribs, shaded coppery red; crimson veinlets.

Mrs. F. Sander. Roundish, dark green leaf heavily blotched. Transparent deep rose.

***Mrs. Fannie Munson.** Deep carmine with heavy scarlet ribs and narrow green edge.

Mrs. W. B. Haldeman. Medium leaf of bright pink with narrow green edge.

***Poecile Anglais.** Dwarf. Wavy leaf of deep crimson bordered metallic green. One of the best.

Reconcavo. A fine, strong grower. Has a delicate rose center, with carmine ribs.

***Richard Deckard.** Coppery rose with bright crimson ribs and golden tints between the pink blotches.

***Rising Sun.** Brilliant deep red center and ribs on dark, gold-tinted background; spotted transparent pink.

Sorocaba. Transparent silvery pink suffused white, with greenish ribs and veins.

Spangled Banner. Glowing red leaf with darker ribs and a profusion of pink spots.

Thomas Tomlinson. Bright crimson center and blotches; narrow green edge. Makes many leaves.

Triomphe De L'Exposition. Old favorite with roundish leaf of bright red; dark green edge.

OUR GOLD MEDAL EXHIBIT AT THE NEW YORK FLORIST CLUB, FEB., 1947

CARNATIONS

Certified Rooted Cuttings

NEW INTRODUCTIONS

Cheerio. (Grass.)

Excellent producing light pink seedling color of Picardy Gladiolus. Does not fade. Splits out only about 10% in early Fall and late Spring.

Per 1000: **110.00**

Freckles (Grass.)

New splendid novelty of an unusual shade of rose-pink, with real small dark pink freckles in petals. Excellent production of larger flowers with stiff stems.

Per 1000: **125.00**

Harlequin. (Hudson and Co.)

New variegated seedling. Flesh pink with wine red markings. Three year agreement. **Orders taken for 1948-49.**

Price—Per 100: **20.00**

Per 1000: **150.00**

Mrs. Virginia Irwin. (George P. Barr.)

This new sport of Giant Virginia is a rose pink in color similar to Virginia, but with stronger habit of growth and with large, full flowers double the size (actual petal count) of the old Virginia, with strong calyx and free of any tendency to splitting. Production comparable with principal commercial varieties grown today. It produces 30 blooms to a single plant the first season, and will not claim that figure as an average, it will produce "bigger and better" characteristics of this Quality. It has received a number of awards including the N.Y.F.C. Gold Medal for Three Years (to Dec. 1950).

20.00

Per 1000: **150.00**

Netta. (Sim Carnation Co.). **Booking orders for 1948-49.**

Light pink seedling from a cross of two unnamed varieties. The color is the loveliest delicate shade of light pink, much richer and softer than Virginia, and more nearly resembles the color of Light Pink Maytime. The flower is large and full, larger than Hercules Virginia, of greater substance, and has a most attractive form. The petals are not as deeply fringed as Virginia. The calyx rarely splits. The plant is large, bushy, clean, and a vigorous grower. The stem is sturdy and is longer than that of Virginia. The **Keeping Quality** is **Excellent**, and the variety ships perfectly. Restricted for Three Years (to Dec. 1950). **Sold out for this season.**

Price—Per 100: **20.00**

Per 1000: **150.00**

Schaefer's Pink. (Charles A. Schaefer.)

Good dark pink seedling, cross of King Cardinal and unnamed seedling. Has good stiff stem, calyx does not split, continuous bloomer, and good producer. Restricted for Three Years (to Dec. 1950).

Price—Per 100: **20.00**

Per 1000: **150.00**

Sidney Littlefield. (Hudson & Co.)

Gold Medal Winner of N.Y.F.C. Feb. 1946. Eligible for Dorner Memorial Medal Feb. 1948. Scored 86 points in qualification at Chicago March 1947. Excellent dark pink seedling. Three year agreement.

Price—Per 100: **20.00**

Per 1000: **150.00**

Symphony. (Baur-Steinkamp & Co.)

New. Patented. Reddish-purple stripes on a delicate mauve background, give Symphony an unusual contrast sought after by leading floral designers. Flowers are full and larger than average, carried on medium length stiff stems. Plants grow freely, giving good steady production from early in season straight through. Subject to agreement.

Price—Per 100: **20.00**

Per 1000: **150.00**

CARNATIONS — Certified Rooted Cuttings

NEW INTRODUCTIONS continued

Sylvia. (William Sim.)

White variegated with pink stripes. Long strong stems, good size flowers, free blooming. Winner at American Carnation Society Convention, Chicago, Certificate Massachusetts Hort. Society. Restricted for Three Years (to Dec. 1950).

Price—Per 100: 20.00 Per 1000: 150.00

GLOWING EMBER. (Murphy & Sons.)

Orange with cerise markings or penciling (not blotched). Very free bloomer, healthy grower, and does not split. Restricted for Three Years (to December 1950).

Price—Per 100: 20.00 Per 1000: 150.00

Silverlyn. Medium pink, silver edge	8.50	75.00

CHRYSANTHEMUMS Certified Rooted Cuttings Introductions for 1948

Constellation. (Yoder Bros. Inc.) Yellow decorative. The two outstanding features are its uniformity in response to black cloth shading and its dependability as a high producer of Quality Flowers. With the use of night and shade we recommend this variety for flowering from May 5 to Nov. 15. Per 100: **8.00**

Seneca. (Yoder Bros. Inc.) Orange bronze decorative Nov. 1. The earliest bronze pompon in the cloth house shading program. It holds its color well. It is a better producer than Navaho, and certainly the most reliable bronze for Early Shading. Per 100: **8.00**

Tally-Ho. Yellow Intermediate Pompon Nov. 15. A quality pompon. It is very similar in many respects to the variety Princeton, and compliments this variety in being a clear yellow and a well rounded hard pompon. Per 100: **8.00**

Yellow Queen. (Yoder Bros. Inc.) Yellow Sport of Orchid Queen Nov. 10. Highly recommended for natural flowering and delayed flowering into Thanksgiving Season by the use of artificial light. Per 100: **8.00**

GARDEN VARIETIES

Spellbound. (Yoder Bros. Inc.) Lavender Pink Decorative. Sept. 25. A striking 3-inch decorative that combines the beauty and grace of Lavender Lady with the durability and substance of Jean Treadway. Spellbound captivates the eye with its gloss and finish derived from Burgundy. The plant is a solid, compact bush attaining a height of 24 inches. The characteristic, uniformly planned flower development contributes to a wonderfully showy mass effect that cannot fail to greatly enhance the early Fall Garden. The habit of growth is equally ideal for pot plant culture. Per 100: **8.00**

Serenity. (Yoder Bros. Inc.) White Daisy, Sept. 25. As a pot plant it resembles the bushy, compactness of Judith Anderson and Pomponette. It is a beautiful creamy-white, heavily petalled daisy that opens rapidly to a real show of literally hundreds of blooms. Per 100: **8.00**

Honeycomb. (Yoder Bros. Inc.) Yellow Pompon, Sept. 25. A small perfectly formed pompon of intense golden yellow. The flowers are borne on well formed sprays nearly ideal for cut flowers of medium 18-22 inch stems. Honeycomb will shape up to a fine pot plant or add a distinctive note of formality and rich color to the Fall Garden scene. Per 100: **8.00**

Asheville, N. C. July 31, 1947

"I like your Gladiolus Bulbs fine. I had 2000 from another company which were no good.

"For next year I want to place my order in time to get the best, and I want them in 500 lots, all No. 1 Bulbs."

Very truly yours

Mrs. Paul Knollman.

SSS

FUMIGANTS, INSECTICIDES, ETC., FOR FLORISTS

FUMIGANTS

Azofume 45. In CANDLE FORM for fumigating greenhouses for control of red spider, cyclamen mites and other mites found on Roses, Carnations, Mums, Callas, Cinerarias, Geraniums, Coleus, etc. Use at the rate of 1 lb. (four candles) to 25,000 cubic feet.

Price per carton of 24 candles..... 10.80
Per case of 4 cartons (96 candles)..... 43.20

Azofume 70. (Azobenzene.) Kills red spider on roses including eggs. 1 lb. fumigates 40,000 cu. ft. Apply like sulphur on cold steam pipes. Turn on the heat to vaporize. No more syringing, no more black spot or spider.

5 lbs. 14.25.....10 lbs. 20.00.....25 lbs. 43.75.....50 lbs. 75.00
100 lbs. 125.00

Azofume 90. The latest of the Azofume series, an improvement in at least two ways—greater purity and easier to handle. Greater purity reducing the dangers to plants and the bleaching of flowers and the concentration has been raised from 70 to 90% cutting down shipping and handling costs.

5 lbs. 14.75.....10 lbs. 26.00.....25 lbs. 56.25.....50 lbs. 87.50
100 lbs. 160.00

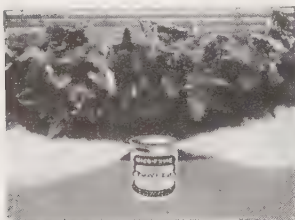

Azofume 100. (Crystals.) For vaporizing with lamps or hot plates for control of red spider. Use one lamp or hot plate for each 7,000 cubic feet, vaporizing 2 oz. Azofume 100 crystals over a period 2 to 3 hours.

5 lbs. 13.00.....10 lbs. 23.00.....25 lbs. 48.75.....50 lbs. 82.50

FERTILIZERS

NITROGEN.....PHOSPHATE.....POTASH

Feed Your Plants and See Them Grow!

Acid Plant Food. Complete food for Gardenias, Azalea, Heather, Rhododendrons and other plants requiring acid soil.....100 lbs. 6.75

Electra 4-9-3. A perfectly balanced plant food. High organic. For Feeding, Forcing, Finishing, Fast, Safe, Complete.....100 lbs. 6.75

Hyponex. Used in Greenhouses, Nurseries and Garden for Seedlings, cuttings, transplanting and general feeding, or for growing plants in chemical culture. An excellent and complete food when used as fertilizer. The new practical way to start seed is to sow it in sand using Hyponex as a fertilizer. This way "damping-off" worries are eliminated. 1 lb. makes 100 gallons.

10 lbs. 5.35.....25 lbs. 10.00.....100 lbs. 26.67

Peat Moss. (Granulated.) Used by leading Florists for mixing with potting soil especially for acid loving plants, for propagating benches, also for packing bulbs and plants, and to improve soil texture.

F.O.B. New York.....5.50 per bale

5 bales and over.....5.25 per bale

Special prices on larger quantities.

Plant Prod. 15—30—15. A water soluble Fertilizer of Triple Strength. When dissolved in water gives a quick acting solution that is very helpful to young seedlings, and freshly transplanted plants. Is beneficial to all types of plants. The economical and safe way to feed.

25 lbs. 8.00.....50 lbs. 10.00.....100 lbs. 17.00

Soot. Universal soot, scotch type, extra dry. A soil activator. Excellent for seed flats and cutting beds. A plant food giving vigor and color.

50 lb. Bag.....5.00

F. & I. Tobacco Stems. Best quality, shredded, containing all the natural nicotine and fertilizing values. For top dressing and to improve soil texture. Kills many insects.
